Psoriasis Research Award for 1978

The Department of Dermatology, Baylor College of Medicine, Houston, announces the Mr. and Mrs. J. N. Taub International Memorial Award for Psoriasis Research for 1978.

This annual award of One Thousand Dollars was established in 1957 by Carol and Henry J. N. Taub in honor of their grandparents, Mr. and Mrs. J. N. Taub. Their establishment carried with it the hope that the award would be an incentive to develop a cure to alleviate one of the problems of mankind.

The award is designed for the individual or group whose investigative work in this field has been the most outstanding. Names of applicants for the award, together with supporting data, should be submitted for consideration by Dec. 1. Results of the research must have been presented before a dermatological medical society or published in a recognized medical journal.

The award's recipient will be determined by a committee of seven men. If, in the

committee's opinion, none of the applications reflect outstanding research, no award will be given for the year.

Address all communications to: John M. Knox, MD, Professor and Chairman, Department of Dermatology, Baylor College of Medicine, Houston, Texas 77030.
